TANTALISED BY TANAZ

An essence of the soul and the essence of a woman

Johannesburg is a city that is renowned as the economic centre of South Africa and is a hustle bustle of high earners, movers and shakers who live busy lives and crave even a moment of relaxation and pampering. Thankfully, indulgent enterprises such as Tanaz hair, body and nail salon exist to satisfy the need for a little pampering.

Entrepreneur and hardworking business woman, Shelene Shaer is a highly practised, very skilled hairdresser with a wealth of travel experience behind her. Shelene has worked very hard over the last 11 years to foster her passion for hair-dressing into a magnificent business that brings a little bit of pleasure to all that enter her salons doors!

Ideally located on Corlette Drive, just near to the exclusive Melrose Arch, Tanaz is providing Johannesburg's up and comings with a unique haven for escape, indulgence and respite.

Tanaz is not just a beauty salon, it is better described as a beauty house where one enters as a guest and leaves feeling like you are part of the family while looking and feeling amazing. Shelene and each and every one of her staff have an incredible knack for transforming their visitors and it is no wonder that she is now the stylist of choice for the likes of Super Sport and the

myriad of beauty editors around Johannesburg. With such a reputation, it is no wonder that Tanaz has such a loyal and regular clientele.

The word Tanaz is a Persian word that describes an essence, an essence of the soul and the essence of a woman and this ethos is something that is so vividly encapsulated by the Tanaz Team, with each and every member exuding this essence and imparting a little bit of it onto each and every visitor that passes through the doors, with their skilled and meticulous hands.

Coupled with the ethos of quintessential beauty is an energy to remain at the forefront of beauty trends and Shelene ensures that Tanaz's beauty menu always has new and exciting options added to it. While It may have been the Brazilian Blow wave last month, this month she is preparing to wow her hair colouring cliental with L'Oreals revolutionary Inoa hair colour which is a revolutionary coloring systems that is bound to leave an even broader smile on her already content clients faces.

Tanaz is a beauty experience that should not be passed up. Whether you are looking for a hair make over or need to indulge your hands, feet and body in a little TLC Tanaz is just the place to do so and I can assure you, one visit and you will be back again and again.
